

**FACE MASKS**

## DISPOSABLE FACE MASKS

In these times when hygiene requirements must be strictly adhered to by everyone, you want your employees and customers to be able to scrupulously follow the rules.

That is why MATTTEO is now launching the Safe@Work single-use mouth masks. These disposable masks are perfect for ensuring respiratory hygiene in department stores, catering establishments, workshops and in the office or at home.

Our mouth masks are CE approved and consist of 3 layers. This means that our masks guarantee good protection in combination with maximum wearing comfort. Each mouth mask has a size of 9.5 x17 cm and is standard equipped with two ear loops in elastic ribbon.

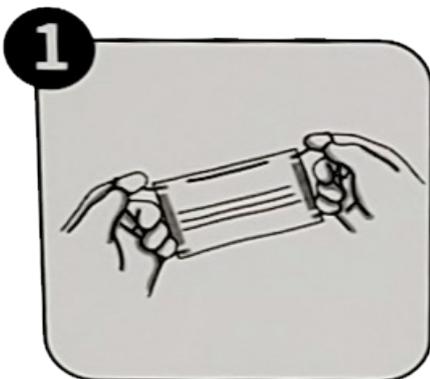

Because MATTTEO has a large stock of these Safe@Work mouth masks, we are able to deliver them to you at very short notice. You can also contact us for dispensers for the mouth masks, so you only need 1 address for all your disinfection supplies.

### User manual

**1**  
The colored side on the outside with the metal wire at the top.

**2**  
Cover your mouth and nose with the mask and place the ear loops behind your ears.

**3**  
Use your fingers to fix the metal wire around your nose. Pull the mask down until your chin is covered.

**4**  
Adjust the mask and make sure there is no space between your face and the mask.
